

Hello my name is Darlene Quesenberry! I am a mother, wife, daughter, and fulltime property owner of River Ridge. I would like to offer River Ridge Golf and Camping Association my best efforts to lead River Ridge in a forward direction. I have 30 years in the maintenance where I received several awards for outstanding performance. I have experience operating heavy equipment and grading. I am experienced in occupational psychology, and psychology in the work place. I have worked with the children here at River Ridge through entertainment, served on tribunal, and currently serving on beautification.

Past board members have made many uninformed decisions regarding pool, roads, and bathhouses all at the expense of the property owners. Hundreds of thousands of dollars wasted. Property owner's priorities and input has been lacking in the past. If you honor me with your vote, I promise to listen and include every property owner. In addition in my opinion previous board members have not done enough to protect our families for drugs. I want my neighbors, kids and grandkids to have the safest environment possible.

We need to take a serious look at the management of funds and ensure property owners understand how our money is spent. I will do my best to be as transparent as possible in regards to future assessments and dues. I will strive to inform property owners of all the financial procedures and operational practices. Drawing on my experience, we need skilled employees and leadership in all aspects of the management of River Ridge including maintenance and infrastructure. I will not vote for any increases in assessments or dues until I have a better understanding of our needs as a community.

Thank you for your vote!
Darlene Quesenberry
